Education

Full stack Web Developer:
Henry Bootcamp (Mar 2022 – Nov 2022)
Master´s degree:
Instituto Tecnológico y de Estudios Superiores de Monterrey (2012 – 2014)
Quality systems and productivity
Bachelor's degree:
Instituto Tecnológico de la Laguna (2005 – 2010)
Mechatronics engineering

Professional Experience

Ford Motor Company (Feb/2025 –Current)
Position: Full Stack Developer (Remote – Mexico)
Activities:

- *Design and maintain scalable web applications using modern full-stack architecture.*
- *Collaborate in agile environments to deliver end-to-end solutions for complex automotive systems.*

Financiera Independencia (Nov/2022 – Feb/2026)
Position: Front End Developer (Remote – Mexico)
Activities:

- *Developed dynamic and responsive user interfaces focusing on seamless user experience (UX).*
- *Optimized web performance and integrated RESTful APIs to ensure high-speed data delivery.*

UANE (Jan/2020 – December 2022)
Position: English Teacher (Torreon, Mexico)
Activities: Delivered advanced English curriculum, enhancing technical communication and comprehension skills of high school students, and bachelor's from different fields.

Manufacturing (Oct/2010 – Dec/2019)
Position: Project Engineer/Automation Programmer/Quality Engineer/Manufacturing Engineer/Quality Manager.
Activities: Worked in various engineering roles in several manufacturing industries, from automotive to food industry, where I gained valuable experience in process optimizations, cost reduction, quality control, leadership and project management. I developed a strong foundation in engineering principles during these years which has helped me with the soft skills in my career.

Skills:

Tech: JavaScript (React, Next.js, Node.js), Mobile (React Native, Flutter, Kotlin), Backend (Java/Spring Boot, Python/FastAPI, Go/Gin), Databases (SQL, NoSQL, MongoDB), and Cloud (GCP, Firebase, Docker, Azure DevOps).

Manufacturing: ERP systems (SAP/PLEX), Auto CAD, SolidWorks, CNC programming, Lean Manufacturing, PokaYokes, KanBan, 5s, 8Ds, SMED, DOE, Problem solving tools, ISO-TS 16949, Line balancing, Haccp system, TPM, GD&T, Program Management, automotive core tools: PPAP, PFMEA, SPC, MSA, APQP, Control Plan.

Soft skills: People management (leading), fast learner, team player, strong communication and collaboration, detail oriented, time management, problem solving, critical thinking.

Languages:

Japanese: Basic.
JLPT Level 4 Certificate.
English: Advanced.
TOEFL IBT 91 / 120.
EF SET C2 - Proficient
Spanish: Native.
